Financial Leadership for Boards of Directors

Facilitated by

Michael Kass, Consultant Nonprofit Finance Fund

Acknowledgment of Indigenous Territories

"To recognize the land is an expression of gratitude and appreciation to those whose territory you reside on, and a way of honoring the Indigenous people who have been living and working on the land from time immemorial.

It is important to understand the longstanding history that has brought you to reside on the land, and to seek to understand your place within that history."

(Northwestern University Native American and Indigenous Initiatives, Land Acknowledgement).

Nonprofit Finance Fund: Where Money Meets Mission

NFF envisions a world where capital and expertise come together to create a more just and vibrant society

We unlock the potential of missiondriven organizations through

- Tailored investments
- Strategic advice
- Accessible insights

Guided by our Core Values

Learning Goals

Examine roles and responsibilities of Board members

Explore nonprofit business models and indicators of financial health

Provide frameworks and tools to support Board governance and oversight

Financial Decisions Follow Mission, Values and Priorities

VISION:

Aspirations and goals for tomorrow

MISSION:

Core purpose

VALUES:

Core beliefs to guide decisions

PRIORITIES

& FINANCIAL DECISIONS

Financial Responsibilities of Nonprofit Board Members and Trustees

1. Duty of Obedience

- Ensure nonprofit obeys applicable laws and acts ethically
- Adheres to the nonprofit's stated corporate purposes
- Activities advance its mission

2. Duty of Loyalty

Make decisions in the best interest of the nonprofit

3. Duty of Due Care

- Prudent use of all assets, including facility, people, and good will
- Oversight for all activities

Financial Oversight

1. Concrete Tasks

- Oversee the annual budgeting process and monitor progress
- Make decisions grounded in accurate financial data and in light of mission goals
- Ensure adequate oversight of the audit relationship

2. Process and Support

- Ensure adequate financial resources for the organization to fulfill its mission
- Prepare the organization adequately for risk
- Take the long-term in addition to the short-term view
- Protect the assets of the organization

Do

Think Big Picture

Tie decisions and actions back to mission and organizational health

Learn the Business

Understand the financial condition, context, how the business model works and what's important to monitor

Think Full Cost

Discuss how to plan for financial needs beyond the budget, such as reserves, working capital or facility

Monitor

Keep an eye on financial health through concise reports that facilitate informed decisions.

Collaborate to Address Issues

Engage in productive conversations about financial health, risk and opportunity, giving staff time to prepare and address issues

Don't

Get into the Weeds

Avoid focusing on small issues or program-level decisions

Silo Finances

Prevent separating finances from programs, people or impact

Fear a Surplus

Breakeven budgeting is not enough -nonprofits need surpluses to manage effectively

Rubber Stamp

Refrain from making decisions without knowing how it affects your mission and financial health

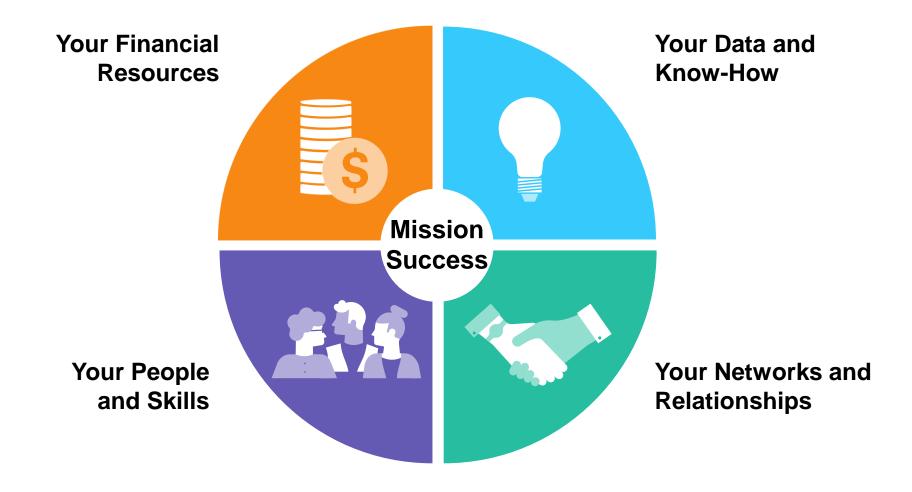

Surprise & Derail

Partner with staff to determine how to pursue important issues before, during and after meetings

Nonprofit Finance Fund

A Strengths-Based Approach

Where is your organization well-resourced? Where is there opportunity for growth?

	Strengths	Needs	Opportunities/Risks
Financial	What complete capital areas are well resourced?		
Networking / Relationships		What complete capital areas do you identify needs or gaps in resources?	
People & Skills			What strengths could be leveraged to fill areas of needs or gaps in resources?
Data & Know- How	What data collected supports the outcomes that you predicted?		

Do

Think Big Picture

Tie decisions and actions back to mission and organizational health

Learn the Business

Understand the financial condition, context, how the business model works and what's important to monitor

Think Full Cost

Discuss how to plan for financial needs beyond the budget, such as reserves, working capital or facility

Monitor

Keep an eye on financial health through concise reports that facilitate informed decisions.

Collaborate to Address Issues

Engage in productive conversations about financial health, risk and opportunity, giving staff time to prepare and address issues

Don't

Get into the Weeds

Avoid focusing on small issues o program-level decisions

Silo Finance

Prevent separating finances from programs, people or impact

Fear a Surplus

Breakeven budgeting is not enough -nonprofits need surpluses to manage effectively

Rubber Stamp

Refrain from making decisions without knowing how it affects your mission and financial health

Surprise & Derail

Partner with staff to determine how to pursue important issues before, during and after meetings

Five Steps to Assessing Financial Health & Performance

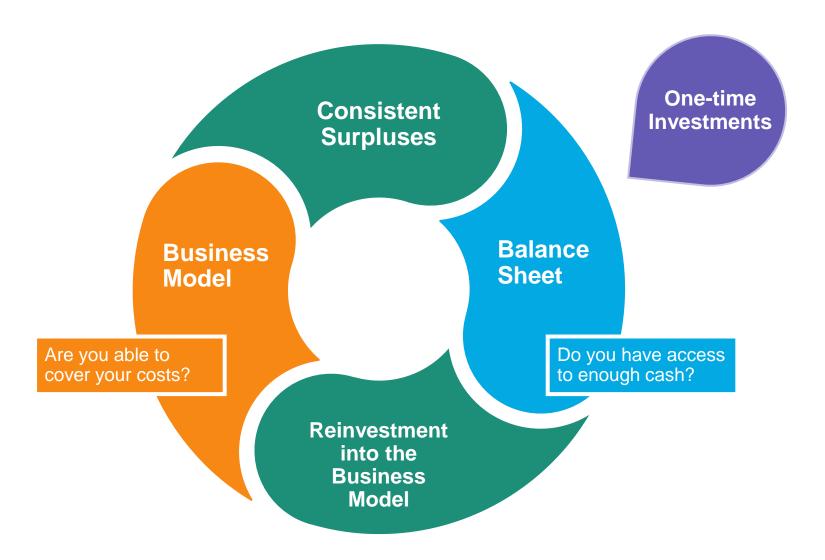

Business Model

- Profitability & Savings: Were costs covered? Were surpluses sufficient to contribute to the organization's full costs, such as savings for reserves or investments in fixed assets?
- Revenue Dynamics: How does the organization make money? Has revenue composition changed over time? Are revenue streams reliable or at risk?
- Expense Dynamics: How does the organization spend money? Are expenses predictable? Is management responsive to operating changes and prepared to make difficult decisions?

Capital Structure

- Health of Balance Sheet: Do assets, net assets and liabilities support the organization's business and programs over the long term? Is there investment into fixed assets? Is debt being managed appropriately?
- Liquidity: Is there enough cash available to cover current obligations? Is cash restricted or spoken for? Does the organization have reserves available to navigate risk or pursue opportunity?

Surpluses Support Mission Success

Do

Think Big Picture

Tie decisions and actions back to mission and organizational health

Learn the Business

Understand the financial condition, context, how the business model works and what's important to monitor

Think Full Cost

Discuss how to plan for financial needs beyond the budget, such as reserves, working capital or facility

Monitor

Keep an eye on financial health through concise reports that facilitate informed decisions.

Collaborate to Address Issues

Engage in productive conversations about financial health, risk and opportunity, giving staff time to prepare and address issues

Don't

Get into the Weeds

Avoid focusing on small issues o program-level decisions

Silo Finances

Prevent separating finances from programs, people or impact

Fear a Surplus

Breakeven budgeting is not enough -nonprofits need surpluses to manage effectively

Rubber Stamp

Refrain from making decisions without knowing how it affects your mission and financial health

Surprise & Derail

Partner with staff to determine how to pursue important issues before, during and after meetings

Understanding Full Cost

"Nonprofit" is a tax status, NOT a business model

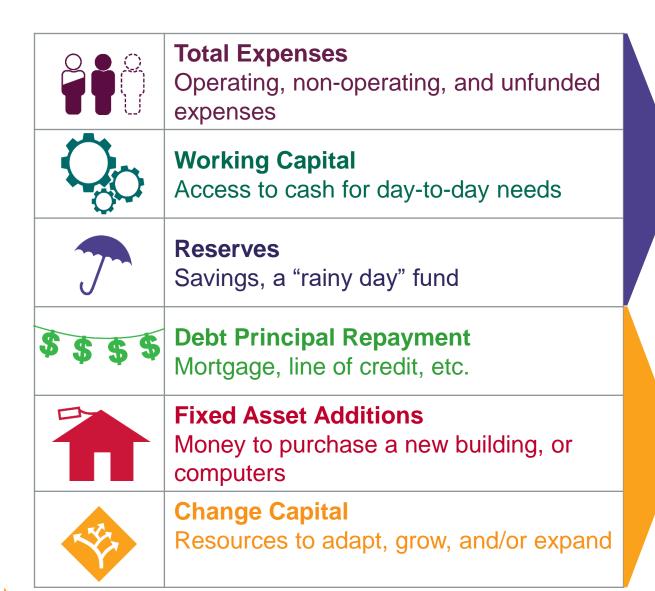

Nonprofits need to generate profits every year in order to cover **full costs**, which are greater than operating expenses.

Full costs include:

- Total operating expenses
- Investments in fixed assets
- Debt principal payments
- Savings to build working capital and reserves

Goal: To Generate Surpluses Sufficient to Cover *Full Costs of Achieving Outcomes* Each Year

Elements of an Organization's 'Full Cost'

'Must haves' for all organizations

Sometimes needed by some organizations

Do

Think Big Picture

Tie decisions and actions back to mission and organizational health

Learn the Business

Understand the financial condition, context, how the business model works and what's important to monitor

How To Help the Board Be Effective Financial Stewards

On an annual basis the board is responsible for approving the budget, the 990 and the audit. In addition...

On regular and consistent intervals (such as, monthly or quarterly basis) the board should receive the following documents:

Key Doo	cuments
---------	---------

Narrative describing the financial status of the organization

Year-to-date actual **revenue and expenses** compared to:

- Year-to-date budget
- Full-year budget
- Previous year's actuals

Cash Flow Projections

Current Balance Sheet

Other Documents

A **dashboard** of key performance indicators & program metrics

Aging Schedules for Accounts Receivable or/and Accounts Payables (if applicable)

Investment summary (if applicable)

How To Help the Board Be Effective Financial Stewards

Quality board financial reports enable the Board to focus on and carry out its governance, asking the right questions

- **Right for the audience**: Making reports digestible, matching level of interest and sophistication, is key to audience engagement.
- **Right level of detail**: Pay attention to the level and type of detail included. The right level of detail can help focus discussion of key issues.
- Consistency of reports: Allows audience to track and compare financial information over time.

Board Reports are unique to the organization's business model and composition of programs

Business Model

Capital Structure

Questions to Help Guide Collaborative Conversations

Manage Within Revenue Reality: How can we live within our means? Are we adjusting expenses in line with revenue?

Business Model Strength: How can we manage to a surplus and saving enough cash to cover full costs and weather future risk?

Business Model Changes: How have our financial results varied from year to year? What's expected for future years? What's changing and what's the risk or opportunity?

Cash Flow: Do we have enough cash to cover day-to-day needs? How could cash flow help us manage cash?

Reserves: How much of a cushion do we have to manage the ebbs, flows and potential revenue risks? What is our plan to build a cash reserve over time?

Other Balance Sheet Needs: How are we managing investments, facilities, debt and other balance sheet needs to best support mission delivery?
